Summary

Computer Scientist with experience developing and deploying full-stack web apps. Skilled in React, Node.js, and SQL/NoSQL databases, with hands-on experience using AWS. Proven leader as Founder & President of NAU's Game Design Club.

Skills

Languages: C, Python, JavaScript
Frameworks: React, Express.js, Vue

Databases: MongoDB, MySQL
Tools & Platforms: Git, GitHub, Bash, AWS

Experience

Software Engineer I - Global Credit Union

Hybrid • June 2026 - Present

- Takes initiative in feature and user story development, executing responsibilities, and collaborating with product development team members
- Develops fault-tolerant, scalable technology solutions to satisfy technical requirements
- Utilizes technical knowledge to write and complete software tasks and product features
- Tests, integrates, writes, troubleshoots, and debugs software applications
- Adheres to company standards and applies design principles and patterns to develop robust product capabilities
- Works closely with other engineers to collaborate in the areas of coding standards, and system related issues
- Performs other duties as assigned in support of team efforts and results.

Software Intern - Reshape Lab

Remote • Jan 2026 - May 2026

- Developed and maintained features in a frontend web application using Vue, improving functionality and user interaction
- Implemented API integration to fetch and manage dynamic data
- Built and maintained an admin portal in the backend with full CRUD functionality using Supabase and Postgres.

Student Employee - NAU Research

Remote • Dec 2024 - April 2025

- Contributed to refactoring backend components of a bicycle routing algorithm using Java, improving code structure and maintainability
- Collaborated with team members to debug issues and ensure performance

Education

Northern Arizona University
B.Sc. in Computer Science

Flagstaff, AZ
August 2022 - May 2026
Cumulative GPA of 3.38
